Our Mission

Our Values

Our mission is to provide integrated and customized services for project well execution from A to Z that improve our customer's business' continuity, cost and ecological footprint. Our mission provides us guidance in making correct and sustainable decisions.

Our core values for Interaction and cooperation with our clients, partners and suppliers are trust and responsibility, team spirit, flexibility, quality and cost conscious. We believe these are essential to create and maintain long-lasting relationships with mutual benefits for all the stakeholders.

Challenge

Convention

We collaborate in smart, meaningful ways, bringing together the teams and talent that yield the greatest results.

We are challenging ourselves as well as the practices of our industry: reinventing our technology and approach to projects, innovating end-to-end for greater efficiency.

Drive for our

Clients' success

We think ahead and seize opportunities for our clients.

We act responsibly and openly, assuring clients and partners of our competence and inspiring their trust at every step.

One Vision

One Purpose

At GLORIOUS we have one overriding vision: to enhance the performance of the world's energy industry.

Our vision is supported by a relentless drive of every individual at GLORIOUS. We are united by one single purpose: to bring together the scope, know-how and determination to transform our clients' project economics.

**Honesty,
Quality and
Respect,
made us the first
choice of our
customers**

The Corporation as a matter of policy prohibits its officers, directors, employees and agents from corruptly, either directly or indirectly, offering anything of value to a foreign government official, foreign political party or candidate for foreign office to influence an official act or secure an improper advantage in order to obtain or retain business.

Chief Executive Officer
Glorious Express Group*

GLORIOUS CO.

Our commitment to excellence

As “Your Turkey & ASEAN & Europe Partner”, Glorious has continuously provided sustainable total solutions, which attract worldwide leading companies’ eyes on cooperation. Plus, Glorious also dedicates to the promotion and practice with the customers and alliances on Improvement of Technology, Economy, Society and Environment along with the applications on several critical topics, such as Green Policy, Industry-academic Cooperation and Social Care.

BUSINESS STRATEGY

PERSONALIZED, IN-HOUSE AND INTEGRATED SERVICES

Our business strategy is to provide our customers with in-house and integrated services for safe, fast and economic execution of their industrial projects in addition to financing well-defined opportunities with our reliable money sources and extensive credits and junctions. In combination with our expertise, systems and facilities we organize and optimize customers' business in terms of integration, continuity, cost and carbon footprint.

Rather than subcontracting various processes, we keep these in-house for reasons of control, reliability, consistency and flexibility.

We believe in long term and lasting relationships with our customers.

We are customer centric, quality minded, asset based and people driven.

PEOPLE DRIVEN

Consulting & Advisory

Our business is to advise the best solution for taking care of your business.

Our clients operate in some of the most complex, technically-demanding and fast-paced industries in the world. They rely on us for consulting and advisory services that bring clarity, set the right agenda and ultimately deliver results.

Procurement

We cater to your needs in a reliable, efficient and innovative way

Our clients have been coming to us for cost-effective, high-quality equipment and materials, delivered through the most efficient supply change management in the world.

Project & Construction Management

No two projects are the same, so neither are our solutions.

From designing to delivering revolutionary transport infrastructure, our clients' work spans some of the most complex projects in the world. We master that complexity by combining our creative thinking with the most innovative technologies, bringing our clients' projects to life with maximum impact.

WHAT WE DO?

From blueprint to delivery, we connect people, technology and data to deliver outstanding project outcomes for our clients on time and on budget.

OUR CLIENTS

KEEPING YOUR BUSINESS GOING

A continuous, transparent and flexible flow of goods is crucial for many companies in today's high speed, globalized and fast changing world. We serve mainly, but certainly not exclusively, customers who are located in the hinterland of the sea ports of Zeebrugge, Antwerp and Rotterdam. This includes the Benelux, Northern France, Germany and Switzerland.

Our clients are mostly SME's (KMO's) with a significant and continuous supply chain, in- and/or outbound. However we also serve several multinationals as well.
